Subject: Mandated birth control
Date: Wednesday, September 28, 2011 9:20:50 PM

Dear sir:

I am writing to express my concern about your mandate requiring all providers of health care services to also provide all legal methods of birth control. I will not provide these services and will encourage others to do likewise if the provision violates our deeply held beliefs. No civilized society should require its citizens to take the lives of other of its citizens without cause.
